

## **Wellingborough Rugby Football Club - CCTV POLICY**

### **Introduction**

The purpose of this Policy is to regulate the management, operation and use of the closed circuit television (CCTV) system at Wellingborough Rugby Football Club (WRFC). The system comprises of a number of 7 fixed cameras located on the club building. All cameras are linked to the screen visible in the function room bar and the system can only be accessed by the Club manager and committee members. The Club owns the CCTV system. The Policy will be subject to review by the Management Committee. This Policy follows the Data Protection Act guidelines and available East Midlands Rugby Union advice.

### **Objectives of the CCTV Policy**

The objectives of the Club's use of CCTV are:

- a) To help protect the club buildings, equipment and members' property stored at the club
- b) To be a visible deterrent to criminal acts against our property or members
- c) To assist the Police in identifying, apprehending and prosecuting offenders if crime is suspected or committed

### **Statement of intent**

The CCTV Scheme will seek to comply with the requirements both of the Data Protection Act and the Information Commissioner's Code of Practice. The Club will treat the system and all information, documents and recordings obtained and used as data protected by the Act. Cameras will be used to monitor activities within the Club grounds in the vicinity of the access gates to identify adverse activity actually occurring, anticipated or perceived.

All the currently deployed cameras are fixed. Materials or knowledge secured as a result of CCTV use will not be used for any commercial purpose. Images will only be released for use in the investigation of a specific crime/incident and with the written authority of the police. Images will never be released to the media for purposes of entertainment. Any images that the club seeks to place on any form of social media to identify offenders etc, must have been agreed by the committee, or in urgent cases, an Officer of the club, and the reason and permission recorded

The planning and design has endeavoured to ensure that the CCTV Scheme will give maximum effectiveness and efficiency within available means, but it is not possible for the system will cover or detect every single incident taking place in the areas of coverage. Warning signs, as required by the Code of Practice of the Information Commissioner, have been placed around the clubhouse.

### **Operation of the system**

The CCTV system will be administered and managed by the Club in accordance with the values and objectives expressed in the code. The CCTV system will operate 24 hours each day, every day of the year, recording all activity.

### **Control and Liaison**

The system provider will periodically check and confirm the efficiency of the system and, in particular, that the equipment is properly recording and that cameras are functional. The Club will liaise with the supplier regarding servicing and/or repairs and maintenance of the system.

### **Monitoring procedures**

Camera surveillance may be maintained at all times and footage continuously recorded and up to 30 days of footage is held on the system memory. To maintain and preserve the integrity of any memory stick used to store data from the hard drive and the facility to use them in any future proceedings, the following procedures for their use and retention will be strictly adhered to:

- (a) A new or 'cleared' memory stick should be used.
- (b) The person responsible for recording will register the date and time of the recording, including any reference number used.
- (d) Any memory stick required for evidential purposes should be sealed, witnessed, signed by the Manager/Committee member, placed in an envelope and stored in the safe. Images may be viewed by the Police for the investigation, prevention and detection of crime. A record will be maintained of any DVD released to the Police or other authorised applicants. A register will be maintained for this purpose. Viewing of footage by the Police or any external individual must be recorded in writing and entered in the register. Requests by the Police can only be authorised under section 29 of the Data Protection Act 1998. Should images be required as evidence, a copy may be released to the Police under the procedures described in this paragraph of this Code.

Images will only be released to the Police on the clear understanding that the images remain the property of the Club, and both it and images on it are to be treated in accordance with this code. The Club also retains the right to refuse permission for the Police to pass to any other person the DVD or any part of the images contained thereon.

The Police may require the Club to retain any stored images for possible use as evidence in the future. Such images will be properly indexed and securely stored until the Police need them.

Applications received from outside bodies (e.g. solicitors) to view or release footage stored will be referred to the Hon. Secretary. In these circumstances, images will normally be released where satisfactory documentary evidence is produced showing that they are required for legal proceedings, or in response to a Court Order. A fee may be charged in such circumstances.

### **Breaches of the code (including breaches of security)**

The Hon. Secretary will initially investigate any breach of the Code of Practice by the Club Manager or any other Club member.

### **Complaints**

Any complaints about the Club's CCTV system should be addressed to the Hon. Secretary. Complaints will be dealt with in accordance with the ICO Code of Practice.

### **Access by the Data Subject**

The Data Protection Act provides Data Subjects (individuals to whom "personal data" relates) with a right to data held about them, including those obtained by CCTV. Requests for Data Subject Access should be made through the Hon. Secretary. The Club reserves the right to make a charge of £10 (currently the statutory amount as permitted by Parliament).

### **Public information**

Copies of this policy will be available to the public from the Club website.

Approved by WRFC Committee Date: October 2016
